Summary

I'm a Junior Software Engineer with experience in C, Cybersecurity, PHP, HTML, and CSS. I have a passion for technology and am constantly striving to stay current with the latest advancements. My experience includes developing secure applications and systems for various clients, creating custom webpages and applications, and utilizing various programming languages to design and develop software solutions. In addition, I am actively involved in the open-source community and have contributed to a number of projects. I am looking to leverage my knowledge and experience to make an impact with an organization who values innovation and collaboration.
